<http://twinstang.com>
Digital Pilot Logbooking.

MotoPermit

<http://motopermit.herokuapp.com>
iPhone app to study for your motor-cycle permit test.

Scottbalance

<http://scottbalance.herokuapp.com>
Saves and emails a daily history of your Scottrade account balance to you.

Profile

I am an accomplished young man. I thrive on the freedom of the web, its wild west ways, and its great optimism. Discipline and a strong work ethic ensure that I am successful in my endeavors. Ruby, Javascript, the web, and aviation excite me.

Endeavors

Developer, Leaderboardnow.com - May 2011 - Present

<http://leaderboardapp.herokuapp.com> Developed the minimum viable features as a mobile web application to attract investors. Leaderboard delivers mobile scoring to golf tournaments. Technologies include Backbone.js, Padrino, Mongoddb, RSpec, Redis/Resque and Heroku.

Developer, Ministry Centered Technologies - November 2009 - April 2011

<http://planningcenteronline.com> & <http://smartevents.com> Employed as #2 developer under the founding developer. Ministry Centered builds planning software. Technologies include Ruby on Rails, MySQL, jQuery, Prototype, RSpec, Unix Server Management, Redis/Resque, Payment Processing, Paypal Payment Processing, and Chord Chart Transposing. Planning Center Online serves over 1,000,000 active users.

Owner/Founder, SpitfireSky.com - August 2006 - November 2009

<http://spitfiresky.com> Established small web design business in the Inland Empire with focus on Ruby on Rails programming. Responsibilities besides programming included accounting, marketing, client management, and remote team management.
